Aspiring Cybersecurity Analyst | Entry-Level Tech Support | Eager to Learn

---

Professional Summary

Dedicated and dependable early-stage cybersecurity student seeking entry-level opportunities in cyber forensics, tech support, and digital investigation. Currently pursuing an associate degree in Cybersecurity while studying programming and security tools from home. Brings over a decade of hands-on technical and customer service experience, now channeling that focus into the digital space. Eager to grow in a remote or hybrid environment with a team that values curiosity, reliability, and a strong work ethic.

Education

Forsyth Technical Community College – Winston-Salem, NC
Associate of Applied Science in Cybersecurity
Expected Graduation: May 2026

- Exploring core concepts: Network security, Linux systems, forensics basics
- Independently learning: Python, Bash scripting, foundational cybersecurity tools

Future – bachelor's degree
Programming & Computer Science (Planned)

- I intend to continue studies toward a Bachelor's after completing my associate degree.
- Focus will be on advanced programming, software engineering, and applied computer science concepts to strengthen cybersecurity and development skills.

LaGuardia Community College – Long Island City, NY
GED | Communications & Sciences (1990–1992)

Tech Skills – In Development

- **Languages:** Python (beginner), Bash (basic)
- **Systems:** Windows, Ubuntu/Linux
- **Tools:** Wireshark (intro), VirtualBox, Nmap (learning), Notepad++

- **Learning Focus:** Cyber forensics, digital investigation, endpoint security
- **Strengths:** Communication, follow-through, problem-solving, teamwork

---

Certifications

- Forklift Operation – 09/2021
- Order Picker – 09/2021
- Electric Pallet Jack – 04/2020

- Held various technical and support roles with Verizon, Cablevision, Broad Band Express, and Boys town USA
- Worked on DSL deployment, cable installations, and customer tech support
- Gained field experience, problem-solving skills, and equipment handling

---

Availability & Goals

Actively seeking entry-level or remote-based roles in cybersecurity, digital investigation, and technical support. Open to internships, junior roles, or contract work where I can contribute, learn, and grow into more advanced responsibilities.
